

The Fast Finish Line

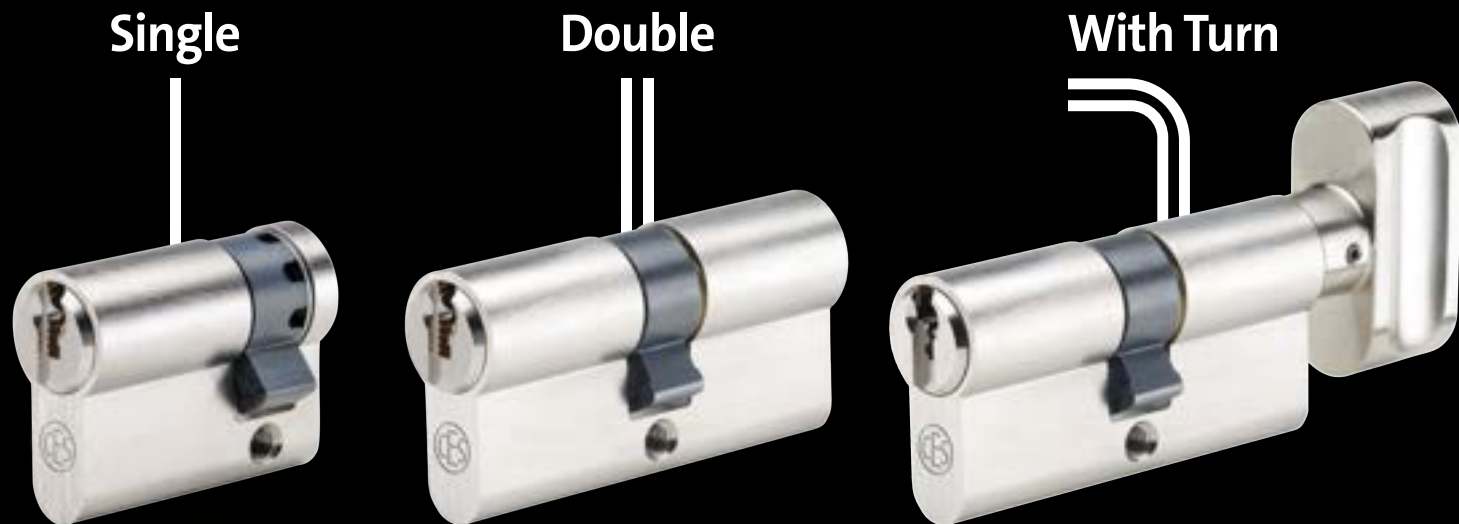

Unlike many locking system manufacturers, all CES Security Solutions' products are **manufactured and finished in-house**, offering flexibility and bespoke solutions, with coating accuracy and precision.

We guarantee functionality and aesthetic durability, without exception.

Quality, on demand

When project delivery timescales are tight and the pressure is on, there's no need to compromise on quality.

We hold a wide range of stock in various sizes and finish variants at our site in Kent, ready for despatch within 48 hours.

Nickel Brushed

Dawn Bronze
C660

In addition to the most requested 'Fast Finish Line' options featured here, we offer over 50 different finishes, all applied by our in-house coating experts.

Whilst the colour representations above are close to reality, we recommend requesting a finish sample disk from us before proceeding with your order.

Split finishes and special coatings are also available.

Get in touch for samples or to discuss any finishes or lead times outside of our Fast Finish Line offering.

Our full range covers all building types, user requirements and standards.

CES takes our responsibility to protect people and planet seriously.

We are committed to preserving our natural resources and continuously lowering carbon emissions.

Regular measurements by external authorities certify that the concentrations in our treated effluent are significantly below the limits set by the German Waste Water Ordinance (AbwV).

All our products have Environmental Product Declaration certificates (EPDs).

Our finishing facility is certified to Quality Management standards according to ISO 9001 and Energy Management standards according to ISO 50001.
